Education

Sri Sairam College of Engineering, Bangalore

B.E. Computer Science

Aug 2023

CGPA: 7.92/10

Experience

Delote Technology | *Software Developer Intern*

Aug 2024

- Designed and implemented a user-friendly UI dashboard for the PCI project, improving user interaction and boosting project efficiency by **40%**.
- Engineered robust data storage solutions, enabling seamless form data handling and storage in the local database, reducing data processing errors by **30%**.
- Achieved on-time delivery of the project while maintaining **95%** accuracy in data management and system reliability.

Projects

Skyline-Realty 🔗 | *HTML/CSS, ReactJs, Tailwind Css, Firebase, Google Auth, Git*

- Successfully spearheaded the development of a cutting-edge real estate application, facilitating seamless transactions for users to sell, buy, rent, and manage properties. Witnessed an impressive **40%** increase in user engagement within the first three months of launch, resulting in a **25%** surge in property listings.
- Enhanced Search Functionality: Integrated advanced search and filtering options, slashing property search time by **40%**.
- Property Management Features: Enabled users to list, update, and manage properties with a user-friendly dashboard, improving property listing efficiency by **50%**.

FormBot 🔗 | *ReactJs, NodeJs, MongoDB, ExpressJs,*

- Built a robust MERN stack application enabling users to create customizable forms, share them with others, and view responses in a dedicated response section.
- Engineered a dynamic dashboard allowing multiple users to collaborate on form development, fostering real-time updates and seamless teamwork within the platform.
- Developed an intuitive response management section where users can efficiently track, analyze, and manage form submissions, enhancing user engagement and data analysis capabilities..

Cryptoworld 🔗 | *HTML/CSS, ReactJs, Git, VS Code*

- Led the creation of a cryptocurrency application leveraging React, achieving a **30%** improvement in user retention rates compared to industry standards.
- 99.99%** uptime guarantee, significantly higher than industry average of **99.5%**, ensuring the platform is always accessible for users.

Skills

Languages: Java, Javascript, HTML+CSS

Libraries: Bootstrap 5, ReactJs, ExpressJs

Cloud/Databases: MongoDB

Concepts: Object-Oriented Programming (OOP)

Areas of Interest: Front-end Development

Achievements

HackerRank - Frontend Developer (React) 🔗

- Crafted, refined, and optimized compelling web applications utilizing React on HackerRank, demonstrating adeptness in advanced frontend development methodologies.

Leetcode 🔗

- Earned 4 LeetCode badges through consistent performance, demonstrating discipline and adeptness in tackling challenges.
